TECHNOLOGY

The **group r. casagrande** has been operating since 1975 in the ceramic market and through **PERKUS** has established itself as the **largest** semigres roof tile **manufacturer** in Brazil.

With the proposal to develop glazed and natural ceramic roof tiles and the most complete and innovative **Coverage System**, cutting-edge Italian technology and design and the highest standard of finishing, our mission is to go beyond the functional objective of protection and impermeability.

Today it is **leader** and **reference** in the segment, maintaining its position with more than 250 million roof tiles sold over the years in Brazil and abroad.
